The first of these is the fact that the
 *Journal of the American Medical Association*
 has been the only one of the major
 medical journals to publish a
 *Statement of Principles* on the
 subject of the physician's
 ethical obligations. This
 statement, which was
 adopted by the American
 Medical Association in
 1953, is a landmark
 document in the history
 of medical ethics. It
 sets out the basic
 principles of medical
 ethics, and provides a
 framework for the
 development of
 specific ethical
 guidelines.
